Acknowledgments

It has been 17 years since the first release of Christ, Our Savior Songbook and much has changed over the years as I now update this revised edition. My children are grown up. I am no longer married, but the music God has called me to write continues and the heart felt pain that I once felt in developing this ministry has to a great extent largely subsided. These songs are still as relevant today as the day I first wrote them. To Christ, Our Savior may there always be all the glory for His great love in saving all those lost in sin, and giving us hope for a bright new future in this world and the next. I thank all those who have stood by me and supported me with this ongoing vision. I thank you from the depths of my heart. May God bless you all.

A Servant of Christ,

Will Goldstein

Preface

It has been my vision as a songwriter for the past 20 years to create contemporary Christian music that would present the truths of the Holy Scripture in a way that reflects our great Christian musical heritage. I believe there is a trend in Christian music today that is heading toward a more complete integration of the worship service. The King's Court seeks to create music that unites the musical entities of the church by bringing together, through its various editions, the worship team, choir, soloists, congregation, and church musicians. There is a great deal of music available today that gives praise to our Lord, Jesus Christ, and for this I give thanks. However, I believe that Christian churches today need to balance the scales, and create a musical dialogue in worship services that also provides music that is directed from the heart of God, through His Holy Word, to His bride. In seeking to know the heart of God we must first understand that His primary purpose through His people, beyond worship and Christian growth, is to bring others into the Kingdom. Therefore, evangelistic music, and by that I mean music directed toward the unsaved, is of primary importance. It is to these goals that The King's Court was created, and it is to the Holy Spirit, working to guide my path day by day through countless miraculous ways, that I dedicate this book, and God willing, future volumes to come.

How To Use This Book

This **edition** is designed specifically for **guitarists, keyboard players** and **bass players** who prefer a **lead sheet format**. All songs are arranged in a **2 page layout** (left/right) to avoid the necessity for any page turns during a song. The songs are arranged as **one continuous story of God's redemptive grace through Christ**, and are **organized into 14 adjacent medleys** for worship leaders. **Part 1** includes the first 7 medleys, and will be the content of our first CD. **Part 2** includes the second 7 medleys, and will be the content of our second CD. It is hoped that these songs will be used in **church services, bible studies, evangelistic concerts, Christian schools & camps**, and any function where the Body of Christ gathers for praise to our Lord, Jesus Christ.

In reference to the **key structure** of the songs and the **modulations** used, I chose keys that the **congregation can easily sing**, and the **average guitarist can play**. When certain keys are used, a separate score for the guitar is added with instructions for the use of a capo. The bass note is included at the bottom of chord symbols. Permission is granted by the publisher to make **1 copy per songbook purchased** of any of the Guitar Version Scores in the back of the book to assist the guitarist in carrying out any worship service.

Instrumental introductions and **interludes** are marked in the scores and are intended to be played by the piano, or by any appropriate available instrument. These short themes may be raised or lowered an octave to accommodate the instrument desired.

Optional solos are marked in many of the songs. This is an excellent way to give trained vocalist within the church an opportunity to share the gifts that God has given them. It also gives diversity to the music by allowing time for the church body to reflect on the message of the song.

About The Canons - There are several canons (rounds) in this book that can be performed in a variety of ways.

Here are some possible suggestions:

- 1) Learn the canon melody well before attempting to incorporate the successive entrances (additional canon parts).
- 2) Use instruments only to play the additional canon parts - this will maintain the beauty of the music, and allow for the lyrics to be heard and understood more clearly.
- 3) After the congregation has learned the song, try having the worship team sing the additional canon parts.
- 4) Finally, try dividing the congregation and have them sing the additional canon parts if desired.
